Chinese Citizen Charged with Massive Anabolic Steroid and Fentanyl Precursor Chemical Distribution Scheme

The U.S. Attorney's Office for the Northern District of Texas has filed federal charges against one of the world's largest alleged anabolic steroid producers, U.S. Attorney Chad E. Moschman announced today.

Chen Fan Yip, a 48-year-old citizen of the People's Republic of China (PRC) also known as Yu Chuan Fu, was charged in September 2021 with five drug crimes, including conspiracy to possess with intent to distribute anabolic steroids, conspiracy to possess with intent to distribute fentanyl precursor, conspiracy to import anabolic steroids, and manufacturing anabolic steroids and fentanyl precursor with the knowledge that they will be unlawfully imported. The indictment against Yip and two co-conspirators was unsealed on March 11, 2021. On Nov. 18, 2021, the U.S. Attorney's Office obtained a seizure warrant for more than 10,000 kilograms - currently worth approximately \$2.5 million - from a crypto wallet that traced back to Yip.
